

Material Safety Data Sheet

CS: 1.4.51

Page: 1 of 4

Infosafe No™ LPSQW Issue Date : July 2009 ISSUED by COLGATE

Product Name **PALMOLIVE BY MENNEN SHAVE CREAM - SENSITIVE**

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name PALMOLIVE BY MENNEN SHAVE CREAM - SENSITIVE
Company Name Colgate-Palmolive Pty Ltd (ABN 002 792 163)
Address Australia: Level 14, 345 George Street, Sydney
NSW 2000 Australia
Emergency Tel. AUS 1800 638 556, NZ: 0800 764766
Telephone/Fax Number Tel: AUS (02) 9229 5600 NZ: 04 576 6700
Fax: AUS (02) 9229 5700, NZ: 04 568 8835
Recommended Use Shaving lubricant.
Other Information New Zealand Address: Level 4, 45 Knights Road, Lower Hutt.

2. HAZARDS IDENTIFICATION

Hazard Classification Not classified as Hazardous according to criteria of Australian National Occupational Health & Safety Commission (NOHSC), Australia.
Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code).

3. COMPOSITION/INFORMATION ON INGREDIENTS

Information on Composition Contains TEA soap, water and additives. It also contains <5% of butane/isobutane/propane mixture as the propellant.

Ingredients	Name	CAS	Proportion
	Ingredients determined not to be hazardous		Not required 100 %

4. FIRST AID MEASURES

Inhalation If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.
Ingestion Do not induce vomiting. Wash out mouth thoroughly with water. Seek medical attention.
Skin Wash gently and thoroughly with water. If irritation develops and persists, seek medical attention.
Eye If in eyes, hold eyelids apart and flush the eyes immediately with running water. Continue flushing for several minutes until all contaminants are washed off completely. Seek medical attention if irritation develops and persists.
First Aid Facilities Normal washroom facilities.
Advice to Doctor Treat symptomatically.
Other Information For advice in an emergency, contact a Poisons Information Centre (Phone eg Australia 13 1126; New Zealand 0800 POISON / 0800 764 766) or a doctor.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media Use foam, water spray, carbon dioxide or dry chemical.
Hazards from Combustion Under fire conditions this product may emit toxic and/or irritating fumes including carbon monoxide and carbon dioxide.
Products
Specific Hazards Aerosol containers may explode when heated. Keep away from naked flames, sparks and other sources of ignition. May release toxic fumes if involved in a fire.
Precautions in connection with Fire Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers.

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures Extinguish or remove all sources of ignition. Wear appropriate personal protective equipment and clothing to prevent exposure. Evacuate all unprotected personnel. Water spray or fog may be used to disperse/absorb

vapour if any. Absorb or cover spilled liquid with sand, earth, or other inert, non-combustible materials if required. If safe, damaged cans should be placed in a container outdoors, away from ignition sources, until pressure has dissipated. Undamaged cans should be gathered and stowed safely. Collect residues and seal in labelled drums for disposal.

Personal Protection

7. HANDLING AND STORAGE

Precautions for Safe Handling Avoid contact with eyes. Prevent build-up of vapours or mist in the atmosphere. Ensure ventilation is adequate.

Conditions for Safe Storage Store in closed packing in a cool, dry, well-ventilated area, out of direct sunlight. Store away from incompatible materials such as oxidising materials agents. Do NOT pressurise, cut or heat aerosol containers. Content is under pressure and can explode violently.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Exposure Standards No exposure standards have been established for this material by the National Occupational Health And Safety Commission (NOHSC), Australia. However, all exposure should be kept to the least possible levels.

Engineering Controls No special engineering controls required. However, under industrial applications, provide sufficient ventilation to keep airborne levels to the lowest possible levels. Where vapours or mists are generated, the use of respiratory protection, or a local exhaust ventilation system is recommended.

Respiratory Protection Not required under normal conditions of use.
Industrial Applications: Where ventilation is inadequate and vapours/mists are generated, the use of an approved respirator with filter complying with AS/NZS 1715 and AS/NZS 1716 is recommended; however final choice of appropriate breathing protection is dependant upon actual airborne concentrations and the type of breathing protection required will vary according to individual circumstances. Expert advice may be required to make this decision. Reference should be made to Australian Standards AS/NZS 1715- Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716- Respiratory Protective Devices.

Eye Protection Not required under normal conditions of use. However, avoid eye contact.
Industrial Applications: The use of safety glasses as appropriate when handling large quantities. Refer to Australian Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.

Hand Protection Not required under normal conditions of use.
Industrial Applications: The use of gloves recommended. Final choice is dependent on individual circumstances.

Footwear Not required under normal conditions of use.
Industrial Applications: Safety boots with non-slip soles as required.

Body Protection Not required under normal conditions of use.
Industrial Applications: Suitable impervious protective clothing. Final choice is dependent on individual circumstances.

Other Information Biological Limit Values: No biological limit allocated.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance White foam.

Solubility in Water Soluble

Specific Gravity Not available

pH Value 8.4

Flash Point Not available

Flammability Non flammable, however if involved in a fire may release toxic gases. Heat will build pressure and may rupture/explode aerosol containers.

Flammable Limits - Lower Not available

Flammable Limits - Upper Not available

10. STABILITY AND REACTIVITY

Chemical Stability	Stable under normal conditions of handling and storage.
Conditions to Avoid	Heat, direct sunlight, open flames or other sources of ignition. Do not expose to temperatures exceeding 50°C.
Incompatible Materials	Oxidising agents.
Hazardous Polymerization	Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicology Information	Not available
Inhalation	Intentional concentration and inhalation can be harmful or fatal. Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.
Ingestion	Ingestion of large quantities may cause irritation to the gastrointestinal system. Symptoms may include nausea, vomiting and diarrhoea.
Skin	May cause irritation to individuals with sensitive skin.
Eye	May cause irritation in contact with the eyes, including redness, stinging and lachrymation.
Chronic Effects	Not available
Other Information	

12. ECOLOGICAL INFORMATION

Ecotoxicity	Not available
Persistence / Degradability	Not available
Mobility	Not available
Bioaccumulative Potential	Not available
Environ. Protection	Prevent large quantities of this material from entering the environment.

13. DISPOSAL CONSIDERATIONS

Disposal Considerations	The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations. Disposal facilities must be capable of handling aerosol cans. Do not incinerate cans even when empty.
--------------------------------	--

14. TRANSPORT INFORMATION

Transport Information	This material is classified as a Class 2.2 Dangerous Good according to the Australian Code for the Transport of Dangerous Goods. Class 2.2 Non-flammable Non-toxic Gases shall not be loaded or packed in the same vehicle or freight as: - Class 1 (Explosives) - Class 4.2 (Spontaneously Combustible Substances) - Class 5.2 (Organic Peroxides).
U.N. Number	1950
Proper Shipping Name	AEROSOLS
DG Class	2.2
Sub.Risk	#
Packaging Method	
Packing Group	
EPG Number	2D1
IERG Number	49
