Not classified as hazardous

Specific Hazards	This product is non-flammable. However, following evaporation of aqueous component, the dried residue may burn if ignited. As a water based product, if spilt on electrical equipment the product will cause short-circuits.
Precautions in connection with Fire	Fire-fighters should wear full protective clothing and self contained breathing apparatus (SCBA) operated in positive pressure mode.

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures	Slippery when spilt. Avoid accidents, clean up immediately. Small spill: Mop up & wash residue to drain with copious amounts of water. Large spill: Contain and place absorbent material such as vermiculite, sand onto spillage. Collect and place into a suitable labelled container. Clean area with soap and water, collect residue and place into the same container. If large quantities of this material enter the waterways contact the Environmental Protection Authority, or your local Waste Management Authority.
